

Scientific Name	Common Name	Height and Longevity	Drought and Salt Tolerance	Wildlife Benefit	Flower Color/ Evergreen or Deciduous?	Minimum Size At Planting
<i>Quercus virginiana</i> *	Live Oak	40'-80' 150+ years	High; High	Food for _birds, small mammals, , shelter	N/A; Semi- Deciduous	15' tall, 4" caliper
<i>Magnolia grandiflora</i> *	Southern Magnolia	30'-50' 50-80 years	Moderate; Low	Nectar for insects	White/ Evergreen	14' tall, 4" caliper
<i>Peltophorum dubium</i>	Copper Pod	50'-80' 30-50 years	High; Moderate	Butterfly nectar	Yellow/ Deciduous	15' tall, 4" caliper
<i>Tipuana tipu</i>	Indian Rosewood	30'-40' 30-50 years	Moderate; Low	Nectar for insects	Yellow/ Evergreen	14' tall, 3" caliper
<i>Callistemon viminalis</i>	Bottlebrush	20'-25' 70-100 years	Moderate; Moderate	Nectar for birds	Red/ Evergreen	12' tall, 3" caliper
<i>Callistemon rigidus</i>	Erect Bottlebrush	20'-25' 70-100 years	Moderate; Moderate	Nectar for birds	Red/ Evergreen	12' tall, 3" caliper
<i>Sideroxylon foetidissimum</i> *	Mastic Tree	50'-80' 30-50 years	High; High	Bee nectar; food for birds	Yellow/ Evergreen	12' tall, 3" caliper
<i>Coccoloba uvifera</i> *	Seagrape	30'-40' 30-50 years	High; High	Food for birds; bee nectar	N/A/ Evergreen	12' tall, 3" caliper
<i>Ulmus Americana</i> *	Florida Elm	40'-50' 30-40 years	High; Moderate	Shelter for birds	N/A; Deciduous	14' tall, 3" caliper
<i>Juniperus silicicola</i> *	Southern Red Cedar	30'-45' 30-50 years	High; Moderate	Food for birds	N/A; Evergreen	12' tall, 3" caliper
<i>Taxodium distichum</i> *	Bald Cypress	30'-100' 50 years	Low; Low	Food for wildlife, shelter	N/A; Deciduous	15' tall, 4" caliper
<i>Bauhinia blakeana</i>	Hong Kong Orchid	20'-40' 25 years	High; Moderate	Nectar for bees and insects	Purple/ Evergreen	14" tall, 3" caliper
<i>Quercus austrina</i> *	Bluff Oak	40'-60' 50-100 years	High; Moderate	Wildlife food	N/A; Deciduous	14' tall, 3" caliper
<i>Magnolia virginiana</i> *	Sweet Bay	40'-60' 50 years	Low; Low	Wildlife food, Nectar for bees	White/ Evergreen	12' tall, 3" caliper
<i>Pinus palustris</i> *	Longleaf Pine	60'-120' 75 years	High; High	Wildlife food	N/A; Evergreen	12' tall, 3" caliper
<i>Ilex cassine</i> *	Dahoon Holly	20'-40' 20 years	Moderate; Moderate	Wildlife food	N/A; Evergreen	12' tall, 3" caliper

Scientific Name	Common Name	Height and Longevity	Drought and Salt Tolerance	Wildlife Benefit	Flower Color/ Evergreen or Deciduous?	Minimum Size At Planting
Tabebuia pallida	Pink Trumpet	30'-40' 20 years	High; Moderate	Insect nectar	Pink; Evergreen	14'tall, 3" caliper
Conocarpus erectus"	Green Buttonwood	30'-45' 35 years	High; High	Insect nectar	N/A; Evergreen	12' tall, 3" caliper
Prunus caroliniana*	Carolina Cherrylaurel	30'-40' 30 years	High; High	Food for birds	White; Evergreen	12' tall, 3" caliper
